## **DETAILED ACTION**

### ***Response to Arguments***

Applicant's arguments filed 11/22/04 have been fully considered but they are not persuasive concerning the below rejected claims. By continuously monitoring the chipper speed, Gerner inherently monitors the chipper at various times. This meets the claimed subject matter of the rejected claims.

### ***Allowable Subject Matter***

Claims 46,48,50-54 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

### ***Claim Rejections - 35 USC § 102***

Claims 45,47,49,58 are rejected under 35 U.S.C. 102(b) as being anticipated by Gerener. See the previous office action for this rejection.

### ***Claim Rejections - 35 USC § 103***

Claims 55-57 are rejected under 35 U.S.C. 103(a) as being unpatentable over Gerner. See the previous office action for this rejection.

### ***Conclusion***

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within

TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
